Reaction Paper to Race the Power of An Illusion

The paper should reflect your thoughts and feelings about the film. Such as, did the films challenge or change any of your assumptions about race? Any surprises? What did you learn? Please provide a brief one to two paragraph summary of the film(s). Include in your paper the title of the film you watched. Please type, double space and spell check your paper before handing it in. I anticipate that this paper should be 2-3 pages in length. Please address all of the questions in your paper as well as your reaction to the films. For more information on this topic you can go to www.pbs.org/race

* What is the relationship between race and power?
* Do you agree or disagree with the idea of “race” as an illusion? Make sure you support your answers.
* Where do your ideas about race come from? What are the sources of your information?
* What is the relationship between race and interpersonal communication?
