Describe the effects of the scene (what you felt, and what you think the director intended)

Discuss the technical aspects of the scene that produced these effects (photography, lighting, color, shots, editing, props, setting, music, etc)

Give reason why the scene succeeded, or did not succeed, in your opinion (take more space if you need it)\(^1\)

\(^1\) Note that this template can serve for your Film Review: your review should be essentially a scene analysis in large—covering the entire film.
